# STEEL SECTOR

## The product

The range of coils we can offer meets, by various steel qualities, the needs of different types of customers and guarantees the full compliance with regulations of countries of origin of the material.

**ORIGIN** — The main areas of origin of materials are North Africa, Middle East, Far East and Balkan Countries. Through our local contacts and collaborators, we are able to guarantee better checking of the material and supplies certainty.

**SPECIFICATIONS** — We trade four types of coils as follows:

HOT ROLLED  
COILS

COLD ROLLED  
COILS

HOT DIPPED  
GALVANIZED COILS

STEEL PLATES

**SPHERE OF ACTIVITY** — Being part of Setramar Group, we can offer the following services:

- **Vessels loading/unloading operations**
- **Import/export formalities**
- **Stocking of the products**
- **Loading on trucks or train**
- **Transport by trucks, by train and by vessel**

We are a reliable partner for whole handling of the cargo and, according to specific needs, we can personalize customs and logistic services also in order to satisfy customers' daily needs.

## Plus

Through synergy with Setramar Group, we can make use of **know how** and **experience** of a well-known and solid partner. We can **satisfy requests** coming from customers that want to buy products before loading or even travelling cargoes, as well as material already stocked on “just in time” basis. This way our customers are allowed to **check the material in person** and also to buy directly the material with **no need to have their own storage area**.
